LEARNING OBJECTIVES
LOGIC MODELS PART 2

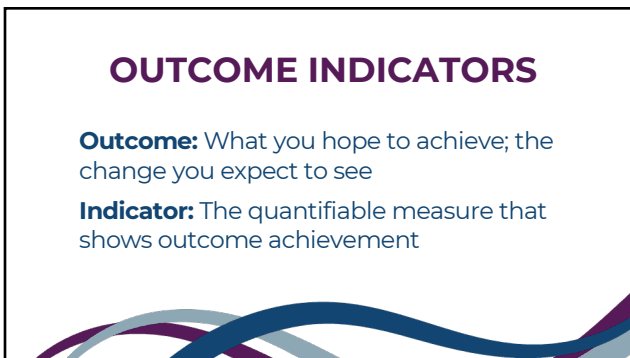

STRENGTHEN SKILLS TO DEVELOP SMART OUTCOMES

INCREASE KNOWLEDGE OF EVALUATION AND HOW TO UNTANGLE CONFUSING EVALUATION TERMINOLOGY

INCREASE KNOWLEDGE OF THE POWER OF LOGIC MODELS BEYOND GRANT APPLICATIONS

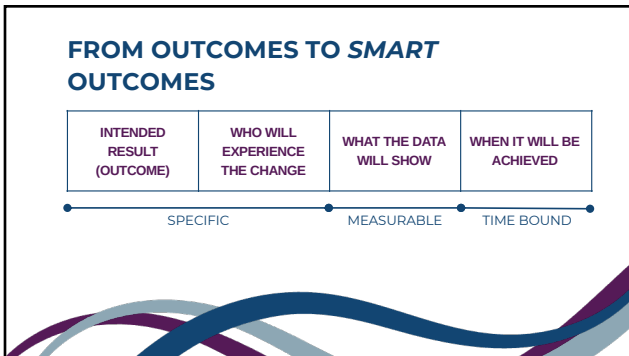

INPUTS	ACTIVITIES	OUTPUTS	SHORT-TERM OUTCOMES	INTERMEDIATE OUTCOMES	LONG-TERM OUTCOMES
Flyer with block party info Food, beverages, ice Fireworks Tables Chairs Pop-up tents Coolers Plates/utensils/napkins Face painter Food sign-up form Judges for parade and Pie Palooza Parade prizes Pie Palooza prizes Donations	Create food sign-up form in Google Docs Create invitation flyer (in Google Docs link) Distribute flyer and post in Facebook group Rent tables and chairs Hire face painters Secure Donations/Volunteers: • Pop-up tents from neighbors • Coolers (8) • Judges (2 for parade, 3 for Pie Palooza) • Financial donations to cover gaps • Fireworks Purchase supplies: • Plates, utensils, napkins (200) • Ice (8 bags) • Purchase food, beverages (for 200 people) • Purchase awards (3 items - 100) and Pie Palooza prizes (3 \$25 Amazon gift cards) Day of/after event: • Set up tables, chairs, pop-up tents • Fill coolers with ice and beverages • Hold 15min/hour/20min periodic award prizes • Hold Pie Palooza judging, award prizes • Set off fireworks • Clean up • Return rented tables and chairs • Post lost items in neighborhood Facebook group • Follow up with neighbors to get feedback	50 flyers created & distributed 4 Facebook posts created & posted 2 volunteer judges secured for parade 3 volunteer judges secured for Pie Palooza 3 parade prizes purchased 2 Amazon gift cards purchased (\$25 each) 4 pop-up tents secured 4 coolers borrowed 2 face painters hired 5 tables rented 40 chairs rented 100 plates, napkins, sets of utensils purchased 8 bags of ice purchased 6 coolers filled with ice 72 people attend (63 adults, 9 children) 32 people bring food 17 children participate in parade 2 Amazon gift cards awarded to Pie Palooza winners 3 prizes awarded to parade winners 13 adults and 10 children provide feedback	New connections made between neighbors New friendships formed between neighborhood children Neighborhood babysitting, pet sitting, and house sitting directories created Increased feelings of community New neighborhood tradition created	Neighborhood crime watch committee created Reduction in car/home break-ins Increased neighborhood pride	Increased community safety Increased community investment Increased intergenerational connectedness Improved mental health/reduced incidence of depression

FROM OUTCOMES TO SMART OUTCOMES

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED
Reduction in car/house break-ins			

SPECIFIC MEASURABLE TIME BOUND

FROM OUTCOMES TO SMART OUTCOMES

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED
Reduction in car/house break-ins	Residents of Willowbrook Heights		

SPECIFIC MEASURABLE TIME BOUND

FROM OUTCOMES TO SMART OUTCOMES

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED
Reduction in car/house break-ins	Residents of Willowbrook Heights	Car and house break-ins (combined) will decrease 30%	

SPECIFIC MEASURABLE TIME BOUND

FROM OUTCOMES TO SMART OUTCOMES

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED
Reduction in car/house break-ins	Residents of Willowbrook Heights	Car and house break-ins (combined) will decrease 30%	July 31, 2025

SPECIFIC

MEASURABLE

TIME BOUND

SMART OUTCOME

By December 31, 2025, (*time bound*) the residents of Willowbrook Heights (*specific*) will experience a 30% reduction of car and home break-ins annually (*measurable, specific*).

Baseline: Number of car and home break-ins (combined) between August 1, 2023 and July 31, **2024**

OUTCOME POPULATIONS

PAGE TURNERS READING PROGRAM

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED
Improved reading skills	3rd graders in Page Turners after-school reading program	72% of students will be reading at or above grade level	May 1, 2025

SPECIFIC

MEASURABLE

TIME BOUND

SMART OUTCOME

By May 1, 2025, 72% of third-grade students participating in the Page Turners after-school reading program will be reading at or above grade level.

Baseline: Reading grade level as determined by the Grade Level Assessment System at the end of second grade.

OUTCOME EVALUATION

By the end of the school year, 72% of third-grade students participating in the Page Turners after-school reading program will be reading at or above grade level.

- Number of students participating: 50
- Number of students who achieved the outcome: 30
- 60% (30/50) of students enrolled achieved the outcome.
- *Report to funder shows outcome was not achieved (60% vs 72%)*

OUTCOME POPULATION REFINEMENT

Is it likely that

- all participants will achieve the outcome regardless of when they joined?
- all participants will achieve the outcome if they miss a significant number of sessions?

Options:

- Number of sessions attended
- Cutoff date (also consider defining number of sessions)

REVISED OUTCOME

By May 1, 2025, 72% of third-grade students **who attended at least 15 sessions** of the Page Turners after-school reading program will be reading at or above grade level.

REVISED OUTCOME EVALUATION

By the end of the school year, 72% of third-grade students **who attended at least 15 sessions** of the Page Turners after-school reading program will be reading at or above grade level.

- Total number of students enrolled: 50
- Number who completed at least 15 sessions: 40
- Number who were reading at or above grade level by end of school year: 30
- 75% (30/40) of students enrolled achieved the outcome.
- Report to funder shows outcome **was** achieved/exceeded (75% vs 72%)

SIDE-BY-SIDE COMPARISON	OUTCOME 1	OUTCOME 2
NUMBER OF STUDENTS PARTICIPATING	50	50
NUMBER ATTENDING AT LEAST 15 SESSIONS	N/A	40
NUMBER ACHIEVING OUTCOME (READING AT GRADE LEVEL)	30	30
OUTCOME ACHIEVEMENT GOAL	72%	72%
ACTUAL OUTCOME ACHIEVEMENT	30/50 = 60%	30/40 = 75%

WHAT IS AN EVALUATION PLAN?

“An evaluation plan is an integral part of a grant proposal that provides information to improve a project during development and implementation.”
- Brown University, Writing an Evaluation Plan

“An evaluation plan is a written document that describes how you will monitor and evaluate your program, as well as how you intend to use evaluation results for program improvement and decision making.”
- National Institutes of Health

AN EVALUATION PLAN ANSWERS THE BIG QUESTIONS

WHAT	What program, services, or activities will be evaluated? What will the results help you learn, show, understand, improve?
WHEN	When will evaluation occur compared to the program or services?
HOW/ WHERE	How/where will data be gathered (in person, digitally)? How/where will it be entered or uploaded How/where will it be saved and stored?
WHEN	When will data be collected? When will it be input for saving? When/how often will it be analyzed?
WHO	Who will gather, input, analyze, and report on data? Who will be included in the actual evaluation? All participants? Some participants?
WHY	Why are you collecting the data? What do you hope to learn?

BASIC OUTCOME EVALUATION PLAN

INTENDED RESULT (OUTCOME)	WHO WILL EXPERIENCE THE CHANGE	WHAT THE DATA WILL SHOW	WHEN IT WILL BE ACHIEVED	DATA SOURCE	DATA COLLECTION & REVIEW (AND HOW IT WILL BE USED TO MAKE PROGRAM REVISIONS)
Reduction in car/house break-ins	Residents of Willowbrook Heights	Car and house break-ins (combined) will decrease 30%	July 31, 2025	City police records	Crime watch committee chair will gather data quarterly and provide to HOA president. Results will be reviewed at quarterly HOA board meetings. HOA board and crime watch committee will determine if program changes are needed and oversee implementation (as needed).

SMART

EVALUATION PLAN

SOUP TO NUTS: LOGIC MODEL TO EVALUATION

LOGIC MODEL

SMART OUTCOME

OUTCOME EVALUATION

Three Common Types of Evaluation

- Process or Formative
- Performance or Implementation (or Process)
- Summative or Outcome or Effectiveness Evaluation

Three Common Types of Evaluation

WARNING

- Process or Formative
- Performance or Implementation (or Process)
- Summative or Outcome or Effectiveness Evaluation

NUTS & BOLTS: FORMATIVE EVALUATION

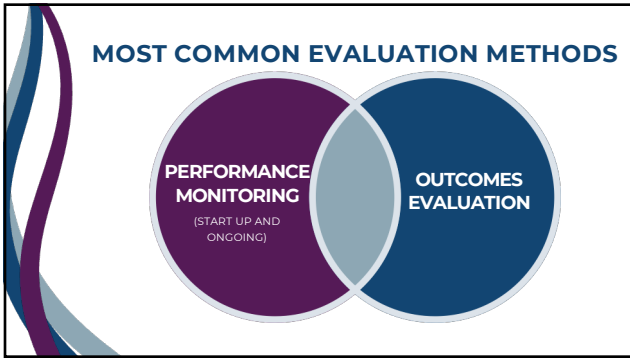

WHAT YOU'RE TRYING TO EVALUATE	LIKELY TIMEFRAME	COMMON NAME(S)
Is this the right intervention? Is it needed?	When developing or starting an initiative	<ul style="list-style-type: none"> Formative Evaluation Process Evaluation (Same term???)
Is it appropriate for whom you will serve?	When changing an initiative or intervention (or applying it in a new situation)	(Less common for grants, though may be formally/informally conducted when designing new programs)
Is the intervention feasible, given the intended aims?	While changes can still be made	

NUTS AND BOLTS: PERFORMANCE MONITORING OR PROGRAM EVALUATION

WHAT YOU'RE TRYING TO EVALUATE	LIKELY TIMEFRAME	COMMON NAME(S)
Is the activity/initiative/intervention being implemented as planned? Is it on track? Is it "working?" (# of activities, type of activities, #s being recruited, #s being served, demographics and characteristics, etc.) Is it being implemented as projected? What are its strengths/weaknesses?	<ul style="list-style-type: none"> Once a program begins operating While it is operating Supports adjustments 	<ul style="list-style-type: none"> Process Evaluation Performance Monitoring Program Monitoring (Common for grants)

NUTS AND BOLTS: SUMMATIVE/OUTCOMES EVALUATION

WHAT YOU'RE TRYING TO EVALUATE	LIKELY TIMEFRAME	COMMON NAME(S)
Is the program or project leading to change regarding your agency's aims or mission? Changes in attitudes, beliefs, behaviors, environments, status (health, education, graduation, etc.) Is the intervention effective?	At regular intervals, often annually At the end of a project's time unit (e.g., every end of a school year) At the end of a project	<ul style="list-style-type: none"> Summative Evaluation Outcomes Evaluation Effectiveness Outcome (Most common for grants)

PERFORMANCE MONITORING

START-UP	ONGOING
<p>Monthly when launching a new program or project. (May reduce to every other month, or quarterly for a multi-year program or project that is operating smoothly.)</p> <p>Initial tracking of things like:</p> <ul style="list-style-type: none"> • Staff recruited, hired, trained • Supplies and equipment purchased • Curricula, databases, or specialized staff training secured and set up • Initial marketing/outreach materials designed or planned • Partners secured, finalized, documented • Compliance with any start-up/funder requirements (DIs, commitments) • Model fidelity (ongoing, too) 	<p>Monthly when launching a new program or project. (May reduce to every other month, or quarterly, for a multi-year program or project that is operating smoothly.)</p> <p>Key outputs demonstrating the work:</p> <ul style="list-style-type: none"> • # people enrolled/engaged • # people served • # events held • # trainings, sessions • # units of service • # active partners • # referrals made/completed • Client retention or persistence • Short-term outcomes (vary widely: # of clients who set and achieve at least one stability goal within 30 days)
<p>Answers the questions: Are we getting the initiative moving smoothly? Is it going as predicted? If not, why not, and how can we adjust?</p>	

OUTCOMES EVALUATION

OUTCOMES EVALUATION	TYPES OF TOOLS
<p>Ideally monthly for a new program or initiative, transition down to every other month or quarterly for an established program that is running smoothly. Reports expected to occur at least annually and possibly quarterly or semi-annually.</p> <p>Directional changes in knowledge, attitude, status, beliefs, behaviors, etc.</p> <ul style="list-style-type: none"> • # and % increase in the number of people served • # and % of clients completing the program • # and % of individuals demonstrating knowledge gain • # and % self-reporting increased confidence or well-being • # and % of individuals achieving a goal • # and % increase in partnerships • # and % example: (40% increase in the number of families served, from 100 to 140) 	<p>Types of tools:</p> <ul style="list-style-type: none"> • Client enrollment logs or client case notes, electronic health records (EHRs) • Client case notes, EHRs, academic database reports • Pre/post-tests • Exit surveys • Follow-up surveys (incentivized?) • Records for organizational capacity
<p>Answers the question: Does the work create change? Is the model effective?</p>	

COMMON TOOLS

PERFORMANCE MONITORING	OUTCOMES EVALUATION
<ul style="list-style-type: none"> • Sign-in sheets • Attendance logs/trackers • Records of items/material distribution • Intake screenings (numbers, demographics) • Session/unit trackers (e.g., encounters, visits, classes, etc.) • Communication, distribution lists 	<ul style="list-style-type: none"> • Pre/Post tests • Surveys (self-report) • Status assessment comparisons (intake vs later assessment) • Status changes (initial vs. later, e.g. unemployed to employed) • Comparison to another group (% graduating high school vs. comparison group)
CHARACTERISTICS	CHARACTERISTICS
<ul style="list-style-type: none"> • Countable items [outputs] showing that work occurred <ul style="list-style-type: none"> ◦ # sessions, classes, meals ◦ # enrolled, engaged, referred 	<ul style="list-style-type: none"> • Percentage based showing directional change <ul style="list-style-type: none"> ◦ Increased # and % of enrollees ◦ Increased # and % of completers
SHOWS CORRELATION, NOT CAUSATION	

A NOTE ABOUT EVALUATION TERMINOLOGY

EVALUATION TERMINOLOGY AND THEIR ALIASES
